SAFETY EMERGENCY PROCEDURES

The information below is to assist teacher leaders and monitors with managing risk and potential hazards on our trips. It also offers practical advice in the event of emergencies and provides a resource base of contact numbers to rescue personnel. In the event of any emergency it's important to stay calm, get all the facts and be sure that you and the other children are safe and accounted for.

Recommendations for Safe Practice on School Adventure Trips:

1. Ensure a **FIRST AID** kit is carried on all days (Adventurebug will always have one)
2. Teachers and Activity Monitors set safety boundaries for children and give warning to any possible hazards including weather patterns, terrain, wildlife, road hazards, public areas and any items of nature that could be a danger.
3. Communication system in place between groups and their supervising leaders and teachers – exchange mobile phone numbers and have a central meeting point each day that everybody is familiar with.
4. Always watch out for one's personal safety in areas of outdoor pursuits and double check on fellow peers when doing activities.
5. Keep within boundaries and respect monitor's judgement and authority.
6. Ensure that an escape route / plan is in place and / or provisions for repatriating an injured or sick from an activity site.
7. Respect all safety equipment and installations.

In the event of any accident or serious illness scenario:

If working with the Adventurebug monitors on activities – tell them what has happened and they will launch their own emergency procedures. If not: Provide any necessary First Aid to casualty & call in further Emergency Services if necessary. Our first line of assistance is:

Medical services – call Euro emergency number 112

Rescue services – call Guardia Civil 062
